Uprush of Prices Was a Little

MARKET WAS MANIPULATED

EVIDENTLY UNDER SKILLFUL LEADERSHIP.

New York, Aug. 14.—There was another uprush of prices today in further recovery from the extreme depression of last week. So violent did the movement become that it was recovered with some suspicion and principles (Jas. 1988). garded with some suspicion and principal traders became very watchful for symptoms of reaction in order to seize a ripening opportunity for a seize a ripening opportunity for a Preferred .... for symptoms of reaction in order to seize a ripening opportunity for a shift to the short side for a turn. The market showed abundant evidence of leadership and skillful management and was held by transfering bull operations from one stock or group of stocks to another, taking profits in the one as buying was shifted to another. News seemed to have nothing to do with the advance. The convictions of the series of the s to do with the advance. The convic-tion was general that necessary liquid-ation has been completed for the pres-

ent and prices consequently left free to seek the level of true values. Little was heard of yesterday's nudulity, and that stock was steadily dulity, and that stock was steadily under pressure to take profits all day with the sustaining strength at other points in the list. It was not at any time more than a fraction over last night and for the greater part of the day was below. The early strength in the market was most conspicuous in the western grain carrying railroads and the principal buying shifted afterward to the eastern part of the map, led by New York Central and followed by the other trunk line stocks. London was reported an eager buyer of New York Central, but no other news was forthcoming to explain the strength in the stock.

London was a seller on the balance of the list in the day's market the

of the list in the day's market, the advance there failing to keep pace with the movement here and so offerings at arbitrage profit in selling in this mar-ket all day. The foreign exchange market was somewhat affected and hardened on a demand for remittances foreigners would resell Americans largely on the advance in prices here. The United States Steel stocks lagged in the upward movement and were affected somewhat by the reports of extensive shutting down of mills in western Pennsylvania and eastern Ohio. Amalgamated Copper was helped by a rise i the price of metal here. In London there was a rise in copper futures with a slight recession in the price of spot. A feature of the day's news was a report of sales of cash wheat at Min-neapolis for \$1 a bushel. The violent upward movement of 5 1-2 points to 50, in Amalgamated Copper on dealings of nearly 100,000 shares, sustained the late market, which had showed signs of hesitation. As it was last prices were often a little below the best, but the closing was strong and active. The day's gains range from 1 to 4 points and the leading Pacifics, Grangers, trunk lines and specialties were

Distribution of Merchandise is Very Heavy.

PRICES OF STAPLES STEADY

VIGOROUS PREPARATIONS FOR FALL TRADE.

Weekly Review of Trade tomorrow will say:

Say:

Earnings of railways for August thus far show an average gain of 7.7 per cent over last year's figures. Distribution of merchandise is very heavy, more interruption to traffic being recorded, and in staples prices are steady. Preparations for fall trade are vigorous, many manufacturers working overtime to fill important orders. Foreign trade at this port for the past week showed a loss of \$1.461.049 in exports as compared with the same week last year, and imports decreased \$2.127,575. In the iron and steel industry the week has brought no developments in the price situation, but there is a steady gain in the purchases of pig iron, although the meeting of the leading concerns' committee failed to decide upon placing new contracts, which was a disappointment to some prospective sellers.

Hides continue weak, but the average

a disappointment to some prospects as disappointment to some prospects sellers.

Hides continue weak, but the average loss not exhibit the fall that has been the rule in recent preceding weeks, some lines slightly recovering.

Failures for the week numbered 174 in the United States against 196 last year, and in Canada twenty-two, compared with twenty-one a year ago.
